Skills

- **Languages**: C++, JavaScript, C, C#, Java
- **Frameworks**: HTML and CSS, .NET
- **Tools/Platforms**: GCP, Azure, SQL Server Express
- **Soft Skills**: Problem-Solving, Team Player, Project Management, Adaptability

Projects

- **Resource Allocation Graph Simulator**(GitHub) July 2025 – August 2025

  About: Developed an interactive GUI tool to model process–resource allocation. Implemented graph algorithms for cycle detection using NetworkX. Enhanced understanding of deadlock detection and OS concepts.
  Tech: Python, PyQt5, NetworkX

- **Fundraiser Planner- Website with integrated Gemini chatbot** (GitHub) March 2025 – April 2025

  Built a fundraising management platform integrated with an AI chatbot for planning, communication, and data insights. Designed the frontend using Tkinter/React and backend with Flask/Django, while connecting to the Gemini API for intelligent responses.
  Implemented multi-turn conversations, real-time suggestions, and secure API handling.
  Tech: Python, Tkinter/React, Flask/Django, Gemini API

- **SecureShare .NET - Encrypted, Self-Destructing File Sharing System** (GitHub) February 2026 – February 2026

  Built a zero-persistence web application for the secure, ephemeral transfer of sensitive files.
  Designed the backend utilizing Clean Architecture principles and Entity Framework Core, ensuring modularity and scalable enterprise deployment.
  Implemented real-time AES-256 stream encryption, unpredictable GUID-based routing to prevent IDOR attacks, and a deterministic self-destruct protocol based on expiration timestamps or download thresholds.
  Tech: .NET 9, ASP.NET Core Web API, C# 13, Entity Framework Core, Microsoft SQL Server Express

Training

- **Splen Technologies & Education Pvt. Ltd** (Certificate) June 2025 – July 2025
  DSA with C++

  Gained hands-on experience in implementing data structures (arrays, linked lists, stacks, queues, trees, graphs) and algorithms (sorting, searching, recursion, dynamic programming).

  Improved problem-solving skills through competitive programming-style exercises.

  Built optimized C++ programs applying concepts like time and space complexity analysis.

Certificates

- Microsoft Azure Security Engineer Associate (Az-500) (Coursera)(Certificate) August 2025 – September 2025
- Computer Communications (Coursera) (Certificate) August 2024- December 2024

Achievements

- **Community Development Project in World Wide Fund**: June 2024
  Spearheaded a wildlife awareness initiative for school children as a volunteer with the World Wide Fund for Nature (WWF).

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.69*** *Since August 2023*
- **Vedic Vidyashram Senior Secondary School** Tirunelveli, Tamil Nadu
  Senior Secondary; ***Percentage: 75%*** *April 2021 - March 2023*
- **Vedic Vidyashram Senior Secondary School** Tirunelveli, Tamil Nadu
  Secondary; ***Percentage: 91%*** *April 2019 - March 2021*
